

# The Game of Becoming

## Quick Start Script and Checklist

### Purpose

This quick start guide ensures a consistent and full experience entering **The Game of Becoming**, including the complete boot sequence of **Godnaut.OS** and foundational gameplay steps.

### Step-by-Step Player Script

#### 1. Boot the Core OS

Enter the command:

```
BOOT GODNAUT.OS
```

This triggers the full system initialization sequence and boots the Godnaut operating system layer.

#### 2. Align the Avatar

After booting, type or confirm the prompt:

```
ALIGN THE AVATAR
```

This synchronizes your avatar with the resonance lattice.

#### 3. Enter the Lattice

Proceed by entering:

```
ENTER THE LATTICE
```

This moves your consciousness into the game's metaphysical realm.

#### 4. Begin the Journey

Once inside, you may initiate narrative exploration by typing:

```
BEGIN JOURNEY or INITIATE QUEST
```

This launches your personalized story arc and activates AI-driven narrative portals.

## Tips for Players

- Always start with `BOOT GODNAUT.OS` to avoid incomplete initialization.
- Follow the sequence strictly for the intended immersive experience.
- Use commands in uppercase for clarity and consistency.
- Experiment with other system commands like `STATUS`, `QUERY`, and `INVOKE` as you advance.
